

# CITY OF FORT WAYNE

THOMAS C. HENRY, MAYOR

**Fort Wayne City Utilities  
Planning and Design Services  
200 E. Berry Street, Suite 250  
Fort Wayne, Indiana 46802**

March 22, 2018

Dear Resident or Property Owner:

Fort Wayne City Utilities is developing a design for stormwater improvement project along the Lawrence Drain in the southwest portion of the Westmoor Park Neighborhood west of Melbourne Court. The purpose of this project is to reduce flooding along the drain by making improvements to the channel from Maurane Drive to the south end of Paveys Glenn Run. Between 2008 and 2016 the City purchased a total of 16 properties along the Lawrence Drain in anticipation of doing this project. This project will create a floodwater storage are on the east side of the channel in the area were the homes were purchased.

City Utilities engineering staff members would like to meet with you to show you the plans for the project and answer questions you may have. We hope you will join us to learn more about the project design:

Monday, April 9, 2018 at 6:30 PM  
Aldersgate United Methodist Church – Room 129  
2417 Getz Road  
Fort Wayne, Indiana 46804

Please enter the church through Door #3. The church is accessible for persons with disabilities. However, if you need other accommodation such as a language or sign language translator, please contact me at least 48-hours prior to the meeting at the phone number or email address below.

If you have questions prior to the meeting, or if you cannot attend the meeting but would like to discuss the project, please feel free to contact me at 260-427-5679 or by email at [anne.marie.smrcek@cityoffortwayne.org](mailto:anne.marie.smrcek@cityoffortwayne.org).

Sincerely,

Anne Marie Smrcek, P.E.  
Manager of Sewer and Stormwater Engineering
